

The Serbian Journal of Engineering Management Call for Papers

The Serbian Journal of Engineering Management is a new scientific journal, published by the School of Engineering Management and The Serbian Journal of Engineering Management.

The publication is dedicated to the topics of engineering management and industrial engineering.

Topics: Engineering management, Industrial engineering, Project management, Strategic management, Logistics, Operations Management, Management of Production Systems, Quality Control, Quality Management, Risk Management, Management of Information-Communication Technologies, Management in High Technologies, Environmental Management, Supply Chain Management, Marketing, Entrepreneurship, Human Resource Management, Financial Management, Creative Industries Management, Security Management.

At the moment the journal is being reviewed for categorization for the Ministry of Education, Science and Technological Development in the field of technical sciences – Engineering Management and Industrial Engineering.

The publication has ISSN number for the print and online version and it is scheduled for indexing and/or publication and/or listing at: EBSCO database; Google Books; Google Scholar database, Serbian Citation Index.

The official languages of the journal are English and Serbian.

Call for Authors (Second call)

The preparations for publishing the second issue of the journal are under way and articles can be submitted by December 1, 2016.

Instructions for Authors

The Journal Committee strives to maintain the high academic standard. The submitted papers should be original and unpublished until now. Also, it is forbidden that papers are in the process of reviewing in some other publication.

The papers would be subjected to check according to *iThenticate* program. The paper should fit the outlined academic and technical requirements.

Paper Types

Original unpublished scientific paper:

- Original scientific paper;
- Plenary lecture and paper presented at the conference;
- Review;
- Scientific review; discussion.

Original unpublished scientific paper:

- Original paper;
- Contribution
- Book review.

Papers may be written in Serbian and English for authors from Serbia or English for authors from other countries.

Submitted papers must be in alignment with guidelines for authors. In case they have not followed these guidelines, they would be reviewed for correction.

All manuscripts are subject to *double blind review*, i.e. the process of double "blind" anonymous reviewing. The papers may not contain any references which may indicate the author(s).

Paper Submission

Authors should send their papers via email casopis@fim.rs in .doc or .docx format.

The application consists of two separate attachments:

- Attachment 1, which contains the following data: the title of paper, author's name (without professional title), institution and address (email, postal address, phone number), as well as the asterisk next to the author in charge of correspondence;
- Attachment 2, which contains the paper with the following elements: paper title, abstracts, key words, the middle part of the paper, tables, graphs, references and attachments.

Authors, who pass *double blind* anonymous review, will receive the document called the Author's Statement of Originality, which will be filled in, underlined, scanned and sent to the email: casopis@fim.rs.

Paper content

All papers should contain: introduction, which elaborates on the aim and subject of the research, main hypothesis, work methods and paper structure; middle part of the paper where research is outlined (it is further divided into sub-headings) and conclusion, which represents summed up results and implications for further research.

Author's rights

After accepting the paper and signing up the Author's Statement of Originality, the author signs the statement according to the Author's Rights of the Journal.

Author's editions

Authors of published papers will receive the printed version of the paper for their personal usage.

Paper submissions:

Papers should be submitted via email: casopis@fim.rs.
